PAG LIN

1 1 Section 1. FINDINGS AND DECLARATION. The general assembly
1 2 finds and declares all of the following:
1 3 1. The economy and social fabric of this state are
1 4 inextricably linked to food production and food production=
1 5 related activities.
1 6 2. Food production accounts for more than twenty=five
1 7 percent of the state's gross annual product.
1 8 3. The expansion of global markets for agricultural
1 9 products has failed to keep pace with increased agricultural
1 10 productivity in recent years, leading to a reduction in the
1 11 amount of income earned by local producers.
1 12 4. Unacceptable numbers of people from across the state
1 13 and around the world do not have reliable access to Iowa's
1 14 abundant food supply.
1 15 5. This state contains some of the most productive
1 16 farmland found anywhere in the world, and the potential to
1 17 feed hungry populations and generate sustainable income for
1 18 local producers is virtually unlimited.
1 19 6. This state has natural and population resources to
1 20 become a world leader in a new economy by creating an
1 21 efficient food infrastructure that links producers,
1 22 processors, distributors, and marketers to vibrant and
1 23 sustainable world markets.
1 24 7. The development of important linkages to different
1 25 parts of the food infrastructure will enable this state to
1 26 establish itself as the food capital of the world by creating
1 27 new opportunities to increase profitability for Iowa
1 28 agricultural producers through product diversification, local
1 29 processing, enhanced distribution, and direct marketing.
1 30 8. It is imperative for policymakers to develop a common
1 31 working knowledge of Iowa's overall food system by collecting
1 32 and analyzing information about the state's food
1 33 infrastructure, including consumer patterns, in an effort to
1 34 improve food policy=related decisions.
1 35 9. A state food policy that is designed to produce a safe,
2 1 nutritious, and adequate food supply stock for world
2 2 consumption must also balance economic, environmental, and
2 3 social considerations that are important to the people of this
2 4 state.
2 5 Sec. 2. NEW SECTION. 7.19 IOWA FOOD POLICY COUNCIL.
2 6 An Iowa food policy council is established within the
2 7 office of the governor.
2 8 1. The purpose of the Iowa food policy council is to
2 9 advise the governor on all aspects of the food system in Iowa.
2 10 The council's advice shall include but not be limited to all
2 11 of the following:
2 12 a. The state's baseline agricultural production output,
2 13 including the collection of data and an assessment of the
2 14 amount of food produced annually in this state; the amount of
2 15 food that is purchased and consumed by state residents; and
2 16 the extent to which the food produced in this state is
2 17 processed, distributed, and marketed by local individuals and
2 18 businesses.
2 19 b. Barriers that limit the access of local businesses to

2 20 production, distribution, and consumer markets within this
2 21 state and to markets outside this state. The council shall
2 22 perform an assessment which includes but is not limited to an
2 23 examination of the manner in which state and local policies
2 24 may impede the ability of local individuals and businesses to
2 25 engage in food production, processing, distribution, and
2 26 marketing activities.

2 27 c. Barriers that limit the access of hungry consumers to
2 28 available food stocks.

2 29 d. Innovative local food system activities, including an
2 30 assessment of the state's capacity to replicate these
2 31 activities across this state.
